<u>Amendment to the Specification:</u>

On page 8, first paragraph, lines 2 - 3 please amend the following:

The OFFLINE request message 100 of FIG.~~3~~4 includes the headers: OFFLINE-ACCEPT, OFFLINE-MAXSIZE, OFFLINE-MAXPAGES. The information included in these headers is entered by the Web browser resident in the client computer 10 and is used by the Web server 22 to set various parameters for the archive file 102. The OFFLINE-ACCEPT header includes the various types of multi-purpose mail extensions (MIMEs) that are to be provided by the Web server 22 in archive file 102. The MIME types may be listed in comma-separated format. The OFFLINE-MAXSIZE header sets the size limit of the archive file 102 in kilobytes (KB). The OFFLINE-MAXPAGES header includes the maximum number of HTML pages that are to be included in the archive file 102.
